

What we do

The Goods Shed at Claremont on the Park

02

Vision

To realise the potential of land and property across Western Australia by delivering excellence in new and revitalised residential and economic centres.

For the past 25 years LandCorp has helped shape Western Australia by building great places to live, work and play.

As the Western Australian Government's land development agency, we play a critical role in planning for the growth and development of our suburbs and towns, our cities and our State.

From industrial investments, which drive job creation and support the development of new industries, to

residential investments, which create exciting places for new generations of Western Australians to call home, we are realising the potential of our great State.

We operate across Western Australia and adopt an integrated and commercial land delivery approach which enables us to provide a return to Government for reinvestment.

We work in partnerships to deliver innovative and sustainable developments.

Cockburn Central West

Strategy

Strategic direction

We have a unique ability to work at scale and undertake precinct developments which help shape our cities and towns. By investing in transport-oriented and strategic infill residential developments, we are able to optimise the use of existing infrastructure to benefit all.

With projects spanning metropolitan, regional, industrial, tourism and commercial sectors, we work to deliver positive social, environmental and economic

outcomes. We do this by working across four key result areas: integrated project outcomes, our relationships and partnerships, organisational and commercial sustainability, and market leadership and innovation.
